(Added to NRS by 1999, 1953)

NRS 720.060 "**Digital signature**" **defined.** "Digital signature" means an electronic signature that transforms a message by using an asymmetric cryptosystem. As used in this section, "electronic signature" has the meaning ascribed to it in NRS 719.100.

(Added to NRS by 1999, 1953; A 2001, 2722)

NRS 720.070 "Hold a private key" defined. "Hold a private key" means to be authorized to use a private key.

(Added to NRS by 1999, <u>1954</u>)

NRS 720.080 "Key pair" defined. "Key pair" means a private key and its corresponding public key in an asymmetric cryptosystem, which may be used in such a manner that the public key can verify a digital signature created by the private key.

(Added to NRS by 1999, <u>1954</u>)

NRS 720.090 "Message" defined. "Message" means a digital representation of information.

(Added to NRS by 1999, <u>1954</u>)

NRS 720.100 "Private key" defined. "Private key" means the key of a key pair used to create a digital signature.

(Added to NRS by 1999, <u>1954</u>)

NRS 720.110 "Public key" defined. "Public key" means the key of a key pair used to verify a digital signature.

(Added to NRS by 1999, <u>1954</u>)

NRS 720.115 "Record" defined. "Record" has the meaning ascribed to it in NRS 719.150.

(Added to NRS by 2001, <u>2721</u>)

NRS 720.120 "Subscriber" defined. "Subscriber" means a person who:

- 1. Is identified as such in a certificate;
- 2. Accepts the certificate; and
- 3. Holds the private key that corresponds to the public key set forth in the certificate.

(Added to NRS by 1999, 1954)

NRS 720.130 "Verify a digital signature" defined. "Verify a digital signature" means, in relation to a given digital signature, message and public key, to determine accurately that:

- 1. The digital signature was created by the private key corresponding to the public key; and
 - 2. The message has not been altered since the digital signature was created. (Added to NRS by 1999, 1954)

NRS 720.140 Applicability of chapter.

- 1. The provisions of this chapter apply to any transaction for which a digital signature is used to sign an electronic record.
- 2. As used in this section, "electronic record" has the meaning ascribed to it in NRS 719.090.

(Added to NRS by 1999, <u>1954</u>; A 2001, <u>2722</u>)

- NRS 720.150 Adoption of regulations by Secretary of State. The Secretary of State shall adopt regulations regarding digital signatures, including, without limitation, regulations pertaining to:
- 1. The use of a digital signature, including, without limitation, standards for the commercial use of a digital signature;
- 2. Licensure of a certification authority, including, without limitation, professional standards that a certification authority must meet in conducting its business;
 - 3. The verification of a digital signature;
- 4. The liability that may be incurred by a subscriber, certification authority or recipient of a message transformed by a digital signature, including, without limitation, the limitation of such liability:
- 5. The use of a digital signature as an acknowledgment, as that term is defined in NRS 240.002:
- 6. The issuance of injunctions and orders and the imposition of civil penalties pursuant to NRS 720.190;
